Sterling, IL., March 1, 2018 – Wahl® Clipper Corporation announces its very first detachable blade cordless clipper. Cut the cord with the new KM Cordless 2-Speed professional clipper!

CORDLESS DONE RIGHT.

The KM Cordless Lithium Ion battery delivers a 2-hour cordless run time while the cord/cordless capability allows for all day use. The Quick Charge feature boasts 15 extra minutes of clipping for every 10 minutes of charge time. Enjoy effortless clipping with the option of 2 speeds – either 3,000 or 3,700 strokes per minute – providing clipper power that best suits your style. The KM Cordless includes the efficiency of Constant Speed Control; this built in torque control automatically delivers more power when clipping through mats and coarse coats allowing for quick work in tough situations. Ergonomically designed to deliver correct balance for comfortable clipping.

“Cuts like butter through pelts and matting easily. I love this clipper! I would highly recommend to all groomers!” | Danelle German, Certified Cat Groomer

OUR BRUSHLESS DESIGN.

The innovative performance of a Brushless Motor runs cool and provides extended motor life to offer maximum power and torque. As a result, the KM Cordless comes with a 5 YEAR Hassle Free Warranty so you can own with confidence!

"The KM Cordless is everything I need in a clipper; quiet yet powerful! It is well balanced, works with all detachable blades, and best of all its cordless!" | Jay Scruggs, 2x World Champion - World Championships Groom Team Competition

QUIETER. FASTER. SMOOTHER.

The KM Cordless is designed to provide a stress-free clip. It's ideal for body clipping or trimming on noise sensitive dogs, cats, horses, and livestock. This clipper comes with a #10 Ultimate Competition Series Detachable Blade for faster, smoother clipping. Two color options are available in Poppy Red and Emerald Green. The KM Cordless clipper kit is complete with a heavy duty 10 ft. charging cord, cleaning brush, blade oil, and instruction book.

"This clipper has barely any vibration which makes areas like ears, flank, and legs easier to clip. It's perfect to use on noise sensitive horses that would normally shy away from a cord." | Natasha Nagawiecki, Certified Equine Groom

OUR PROMISE.

The KM Cordless delivers benefits you can see, feel and measure; we are so confident that our products represent the best quality and value available that we offer a 30-day satisfaction guarantee. If any of the professional animal products do not meet your needs or expectations, simply return the product within 30 days for a prompt refund, credit or exchange.

Wahl, the quality you expect from the brand you trust. Wahl carries an extensive product range of clippers, trimmers and grooming accessories designed to meet your every need. Whether cutting the thickest of coats or precision trimming around eyes, ears and paws, Wahl has the grooming tool solution.
