### FREE RABIES CLINIC

### Traveling vet to make a stop in Whiteside County for free vaccinations, microchip clinics, personalized tags and more

*Wahl Animal recognizes service by covering the cost of the first 100 dogs to receive service*

**STERLING, Ill.** (May, 18, 2018) – A stately, silver-haired doctor knocks on your door. He’s there for a house call – assuring check-ups and vaccinations are all part of your family member’s future.

And by family member, we mean the four-legged kind. Dr. Timothy Dayton makes house calls – for your dogs and cats.

Dedication to animal wellness is a top priority for the travelling Dr. Dayton. That’s why in collaboration with the Happy Tails Humane Society-Wellness Clinic, Dr. Timothy Dayton and the Pets for Life Team will make a stop at the Whiteside County Animal Control facility, 1701 Industrial Park Road, Rock Falls, IL., 61071, to offer free rabies vaccinations, microchip clinics and personalized pet tags on Sat., May 18, from 3 to 7 pm.

Wahl Clipper Corporation, with headquarters in Whiteside County, was eager to jump on board to cover costs for the event.

“For our Wahl Professional Animal Division, it’s animals first. Every time,” says Chelsea Compton, Marketing and Communications Coordinator. “When we meet up with veterinarians, non-profits and

volunteers who share that value – and they are right in our own backyard – we have to step up and be part of something great.”

Wahl’s partnership with the program covers all costs for the first 100 dogs that attend the free clinic.

The event is held outdoors and is first come, first serve. It’s a dog-only program and is limited to Whiteside County residents.
